

MILWAUKEE M12™

STICK TRANSFER PUMP

One-handed water transfer anywhere you need it.

Reach water where others can't. The M12™ Stick Transfer Pump's 360° submersible aluminum barrel gets to the bottom of trenches, catch basins, meter boxes, and sump pits, while HydroPass™ 360° filter technology keeps water moving through heavy debris. One-handed control frees your other hand to aim the outflow right where you need it.
